THE WORDS OF GOOD WILL

He senior members of our team are our inspiration. When we see them working effortlessly for the relief of mankind, our society and motivation is boosted beyond measure. Quoted below are a few words of goodwill coming straight from their hearts.

We have only one life to achieve everything, let our legacy be of benevolence to our patients and to mankind. -Dr. Saadia Shehzad Alam

Being a philanthropist I always have soft corner for deserving patients and PBS has given me that platform. I have been working as Head of Disaster Management and Camp Section. Let us join hands for this noble cause to serve the poor. -Dr. Ayesha

Live for others, and live for a reason.... In service is greatness... Life is all about commitment and devotion, so come and join us in our ventures. -Dr. Shahid Iqbal

I take immense pleasure in writing a few words, trying to summarize my overwhelming feelings, for PBS when I first became a part of it as Vice President some two years ago. To keep my sentiments very simple, this has been the light in the dark for the poor and needy patients at least for patients pouring in to SZH which is the proof of the enthusiasm of doctors here to take self-initiative to help the ones in pain. May Allah help us and the generations to come who will bear the torch of PBS to improve it and help the ailing humanity in better way.
Dr. Kamran Dawood

I requested you all to join us in this noble cause and help us make a difference. Your contributions both as donations and personal efforts are valuable to us. In the end I just want you to know that, not every day is going to offer us an opportunity to affect one. -Dr. Asim Masood

THESE LIVES...

The lives that have been affected through PBS may not be easy to count. When we help a patient in need, in fact, through him we are helping lift the grief of all those affected by his pain.

I am thankful to be able to walk again and to be able to do my own work. Soon by the grace of Allah, I look forward to be able to find a job well suited for me. For all those associated with helping me in my difficulty, I hope God bestows them with Health and happiness.
-Muhammad Javed

When I realized that due to my illness I will have to receive dialysis as well as medications that I won't be able to afford; I was unsure of where life was taking me. Someone told me about PBS, and now I am more than grateful for what they have done for me. -Muhammad Asghar

People who can afford to give, they should donate in abundance to PBS. As far as I have gotten to know this system, I have no doubt about its parity regarding patients and the just utilization of funds. Deserving people should be able to find your doors and be helped by all means possible. -Nusrat Bano Husband
